

ConnectionsIT Delivers Advanced Video Surveillance Solutions to Pomo Casinos

Pomo Tribes Integrate Video Surveillance into Overall Security Programs at Four Casinos

Tulsa, Oklahoma and Lake County, California – May 18, 2009 – ConnectionsIT, one of the most respected Indian Nation gaming security system integrators, has helped to deliver new video surveillance solutions to the Twin Pine, Robinson Rancheria, Konocti Vista, and Sho-Ka-Wah Casinos that are owner and operated by several Pomo Indian Bands near Lake County, California.

Twin Pine Casino is located in scenic southern Lake County at the northern gateway to the world-renowned Napa Valley. It offers its guests a wide variety of slot machines with a well-rounded mixture of the latest and most electronic and table games.

Robinson Rancheria Resort & Casino has been offering the best in casino gaming since 1989. Conveniently located on the north shore of beautiful Clear Lake in Lake County, it provides a beautiful setting to enjoy the latest slot and electronic games.

Konocti Vista Casino Resort, Marina and RV Park is the only casino in Lake County located on historic Clear Lake. It also is one of the few California gaming casinos with its own marina.

The **Sho-Ka-Wah Casino** opened in August of 1998 with 308 slot machines, had an expansion of a 250 seat bingo hall, and has since expanded to a total of over 550 slot machines, 6 table games, 3 poker tables, two food venues, and a full service Sports Bar. Today, it offers over 40,000 square feet of gaming facilities.

The four Pomo casinos are independent owned and operated by different Pomo Indian Bands. Their challenge is to provide a safe and secure environment for their guests and employees, and to also meet the local and state gaming commission guidelines for video surveillance practices. Video surveillance is an essential to monitor the gaming facilities and also to protect the cash transfer areas. As the casinos continue to expand their gaming facilities, they must have reliable and flexible video surveillance solutions that can grow with their future needs.

As a leading security system integrator, ConnectionsIT works with all types of security product and service companies to create the right solution that custom fits the needs of a particular casino environment. ConnectionsIT has a long and impressive history of working with Native American casinos such as the Comanche, Muscogee Creek, Choctaw, Paiute, and several Pomo Bands to incorporate the industry's best product providers into solutions that deliver results.

“These casinos need open systems, access to the very best security solutions, and someone who will stand behind their products and services,” said Brody Carlson, President of ConnectionsIT. “Video surveillance solutions represent a substantial operational investment and it is important that the smaller casinos have access to the same advanced security technology as the larger gaming establishments. We have built our reputation on making that happen.”

Brody added that over the past few years, the Pomo casinos have made the necessary transition from small locally owned casinos to more established gaming and resort locations that offer the same gaming options and guests comforts as many Vegas –Style casinos.
